SEASIDE VIBES

Our quaint hillside village of **Summerland**
captures the spirit of the season

With a stunning location overlooking the Pacific,

the friendly little beach town of Summerland has evolved from a turn-of-the-century spiritualists' colony into a lively locale for a day of shopping, noshing, and relaxation. An array of residences hug the hillside, while a leisurely stroll along Lillie Avenue, the main thoroughfare, reveals clapboard cottages and contemporary spaces that house clothing boutiques, art and antique emporiums, inspiring home and garden decor, chic salons, fitness studios, and spas (even a grooming spot for your four-legged pals).

In this community, the emphasis is on women's and men's apparel and accessories that are attuned to the Santa Barbara lifestyle—from beachwear to casual elegance—and on furnishings that fit the American Riviera's penchant for indoor-outdoor living. The mind-body connection gets its share of attention, too, with training facilities for sports and health enthusiasts and serene spots for meditation and beauty treatments. Meals? There are myriad choices, beginning with a hearty breakfast or brunch; burgers, deli fare, or more for lunch; and convivial gathering spots for drinks and dinner with friends.

If the urge to linger longer takes hold, that's not a problem. You'll find inns that make it possible to stretch those delightful Summerland hours into several days or more. —JOAN TAPPER
